JUSTICE WITHOUT LITIGATION

FOR EUROPE

ARE YOU A **COURT COMMISSIONER**
AND NEED **ASSISTANCE** IN CROSS-
BORDER **SUCCESSION PROCEEDINGS?**

- **New legal assistance tools** of the European Notarial Network
- **Direct collegial communication** and cooperation

Thanks to the EU co-funded Justice without Litigation project, the notariats of Central Europe are now moving even closer together in mutual collegial legal assistance. In Austria, Croatia, the Czech Republic, Hungary and the Slovak Republic, there is the legal particularity that notaries perform judicial functions, especially in succession matters, for example as court commissioners. Against the background of EU law, especially the EU Succession Regulation, practice-oriented mutual cross-border legal assistance is steadily gaining importance.

For better case handling and cooperation in cross-border successions, a specialised mechanism for online cooperation for notaries acting in court function has now been set-up by expanding the ENN (European Notarial Network) of CNUe (Conseil des Notariats de l'Union européenne). This facilitates direct communication between notaries performing such court functions in Europe.

+ Forum

+ Secure communication,
incl. videoconference between notaries

The EU co-financed JuWiLi project of the Chambers of Notaries of Austria, Croatia, the Czech Republic, Slovakia and Slovenia, as well as with the participation of Hungary aims to analyse the term „court“ under the EU Succession Regulation in the context of non-contentious judicial procedures by notaries from a comparative law, fundamental rights, rule of law and economic viewpoint. For better procedures and cross-border case-handling cooperation between notaries in the participating countries, a specialised online cooperation mechanism has been set-up through CNUE's ENN (European Notarial Network) online platform.
